Comment:

I'VE HEARD THAT NEW FUEL BECOMES SPENT FUEL  
IN ABOUT A YEAR AND A HALF AND THEN IS REPLACED  
WITH MORE NEW FUEL. ~~IS THIS TRUE?~~

ALSO: I'VE HEARD THAT THE SPENT FUEL IS  
~~AT LEAST ABOUT~~ ABOUT 1000 TIMES MORE DANGEROUS THAN THE NEW  
FUEL. ~~IS THIS TRUE?~~

I WONDER IF ~~IS~~ THE PUBLIC IS AWARE THAT THESE PLANTS TAKE FAIRLY  
DANGEROUS STUFF <sup>(THE NEW FUEL)</sup> AND MAKE IT INTO 1000 TIMES  
MORE DANGEROUS ~~STUFF~~ <sup>STUFF (THE SPENT FUEL)</sup> EVERY YEAR AND A HALF?
