Comment:

I have been Sheriff of Burke Co. since 1981.
I was Sheriff during the construction of Plant Vogtle.
The co-operation between Ga. Power/Plant Vogtle and my
office could not have better. They (Ga. Power/Southern Nuclear)
kept me informed of every aspect of the operation from
day one! ~~This has~~ They (G.P./S.N.) still keep me
informed, updated on everything going on. Their management
team is & always has been the very best. The security
dept. at Plant Vogtle is Second to None!!!

The whole operation at Plant Vogtle is a great
asset to Burke Co, CSRA, State of GA, & United States
of America - I look forward to the construction
of the new reactors & future expansion at Plant Vogtle

Yours for better law enforcement,
