Subject: Status of Part 63

Tim

My management is requesting from me the status of the Part 63 final rule. (b)(5)
(b)(5)

I have already noted to them, as a preliminary response to their request, that final Part 63 was sent to the Commission on 6/19/07 (SECY-07-0102) in which we noted that EPA's draft final rule was under review by OMB and we committed to inform the Commission when the review was complete so that the Commission would be in a position to affirm the amendments to Part 63. (b)(5)
(b)(5)

Any other info to add

Thanks

B/9
