Control No.:

127254

Docket No.: 030-12894

Licensee: Lockheed Martin Corporation

Action Type: Amendment

Certification of Application Review for a Part 30, 40 and 70 License

I certify that I have reviewed the application dated <sup>letter</sup> August 26, 1999 as supplemented by any letters referenced in the license in accordance with guidance provided by the Office of Nuclear Material Safety and Safeguards applicable Standard Review Plan and associated checklist and have concluded that:

- (1) The application is for a purpose authorized by the Act;
- (2) The applicant's proposed equipment and facilities are adequate to protect health and minimize danger to life or property;
- (3) The applicant is qualified by training and experience to use the material for the purpose requested in such manner as to protect health and minimize danger to life;
- (4) The application is not for commercial waste disposal by land burial or for any other activity which the Commission has determined will significantly affect the quality of the environment; and
- (5) Any Sealed Source and Devices ADDED to this license were reviewed against the Sealed Source and Device Catalog.
- (6) All records important to safe & effective decommissioning of the facility & all records concerning public dose & waste disposal have been transferred to the person continuing the licensed activity, or to the NRC for license terminations.
- (7) Licensee has submitted an emergency plan if required by its possession limit.
