Mr. Norman C. Moseley, Director
Office of Inspection and Enforcement
U.S. Nuclear Regulatory Commission
Region II - Suite 818
230 Peachtree Street, NW.
Atlanta, Georgia 30303

Dear Mr. Moseley:

OFFICE OF INSPECTION AND ENFORCEMENT BULLETIN 75-06 - IE:II:NCM
50-259, -260, -296, -327, -328, -390, -391, -438, -439 - BROWNS
FERRY UNITS 1 AND 2

In response to your May 30, 1975, letter which transmitted IE Bulletin 75-06, our preliminary investigation into the use of Westinghouse type OT-2 control switches in safety-related systems is continuing. A report on the results and any proposed corrective action will be submitted for all TVA nuclear plants by July 31, 1975. Browns Ferry units 1 and 2 are out of service because of the recent cable fire and will not be in service for some time.

Very truly yours,

J. E. Gilleland
Assistant Manager of Power

Letter to N. C. Moseley from Tennessee Valley Authority dated July 1, 1975.
