Atlanta, Georgia 30303

Dear Mr. Moseley:

This is in further response to Directorate of Regulatory Operations Bulletin No. 74-6 transmitted by your May 30, 1974, letter. We have changed our plans since my letter of September 18, 1974, on this subject. Instead of inspecting Westinghouse W-2 switches at the Watts Bar site, our Watts Bar design project is arranging for inspection and documentation thereof (before shipment) by Westinghouse and vendors other than Westinghouse of all type W-2 switches covered by DRO Bulletin No. 74-6.

Very truly yours,
