

Upon review my licensing action (MCN 141202), I noted the following error: MCN 140333 was voided on June 27, 2007, for the failure to provide additional information in a timely manner. This would have resulted in amendment no. 36. MCN 140652 was issued on July 26, 2007 as amendment no. 37 since the reviewer for MCN 140333 had not removed his copy of a license from the current licensing folder. MCN 141202 is being issued on October 30, 2007, as amendment no. 38. This is a note to file in explanation of why there is no amendment no 36 for this license.

Steven R. Courtemanche /RA/ 10/30/2007
