(NOTE: This will be used as the Documents Title in ADAMS)

Summary: Dr. Pohl's attachment 2B was missing. It was missing because we didn't wish to make Dr. Pohl an authorized user at this time. Are you going to use the entire facility for location of use? No, we recently determined the location. Is the description of equipment the same as in the application dated September 6, 2007. Have you completed the RSO training that was scheduled in September? Yes, I have recently completed the training. The application was missing security procedures. The opening of packages procedure appears to be contrary to regulations. I will send a request for additional information letter on the items that need addressed.

Action Required: Send a request for additional information letter.
