Subject: Indian Point EIS Comments

Bo Pham

Dear Bo Pham,

I formally request that the Nuclear Regulatory Commission address the following environmental and public health issues in the Draft Environmental Impact Statement for the Indian Point nuclear power plant:

1: the impacts of a terrorist attack or large-scale accident at Indian Point on the Croton Reservoir, a drinking water supply for New York City and Westchester County residents;

2: the impacts of Indian Point's once-through cooling system on the Hudson River fish populations - including entrainment, impingement, and thermal pollution - using the most current scientific studies;

3: the build-up of high-level radioactive waste at Indian Point and the ongoing radioactive leaks originating from at least two spent fuel pools;

4: the alternatives to Indian Point's nuclear power, using a combination of renewable energy (wind, solar, geothermal), conservation, and clean natural gas, as offered by the 2006 National Academy of Sciences report.

Sincerely,
Susan Rukeyser
5 Little Lake Rd.
Ossining, NY 10562
