Subject: Indian Point EIS Comments

Bo Pham

Dear Bo Pham,

As a Westchester County resident that lives within 5 miles of Indian Point, I formally request that the Nuclear Regulatory Commission address the following environmental and public health issues in the Draft Environmental Impact Statement for the Indian Point nuclear power plant:

- 1: the impacts of a terrorist attack or large-scale accident at Indian Point on the Croton Reservoir, a drinking water supply for New York City and Westchester County residents and is less than one mile from my house;
- 2: the impacts of Indian Point's once-through cooling system on the Hudson River fish populations - including entrainment, impingement, and thermal pollution - using the most current scientific studies;
- 3: the build-up of high-level radioactive waste at Indian Point with no solution for their permanent disposal; and
- 4: the ongoing radioactive leaks originating from at least two spent fuel pools that threaten the Hudson River and our groundwater;

Sincerely,
Mary Cronin
201 Cleveland Drive
Croton on Hudson, NY 10520
