Dear Chief Pelke,

Please accept our thanks for allowing Colleen C. Casey to work closely with us on our Perfexion gamma knife startup over this past year. This gave continuity that was vital. Ms. Casey's efforts on our behalf never diminished throughout this process, including most recently her extra effort to finalize approval for our two other radiation oncologists, Rajnikant Mehta and Ramesh Vedula, enabling us to proceed with scheduled treatments of our gamma knife patients. We would otherwise have had to advise these patients and their families of the need to reschedule and delay their treatments several weeks out, due to the unavailability of our first authorized user, Dr. Kotecha.

Please give Ms. Casey our sincere thanks for her excellent assistance and a job well done.

Our Kindest Regards,

Larry Langrill, RSO, Senior Physicist
