Re: License #29-13911-01 South Jersey Healthcare-Regional Medical Center

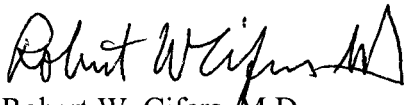

To Whom It May Concern:

This is a letter of attestation regarding any sodium iodide iodine-131 use permitted by 35.300 in quantities less than or equal to 33 millicuries.

As an NRC authorized user of such, I can attest to the fact that Lawrence Neustadter, D.O., has observed the administration of such therapy in a controlled setting with education and understanding of appropriate guidelines according to our quality management program policy and procedure. These include several patient treatments with diagnostic work-up and review prior to administration.

It is my recommendation that we extend privileges to Dr. Neustadter.

Sincerely,

Robert W. Cifers, M.D.
