SUBJECT: ACCEPTANCE REVIEW OF LICENSE AMENDMENT REQUEST FOR UNITED NUCLEAR CORPORATION'S CHURCH ROCK URANIUM MILL SITE - SOURCE MATERIAL LICENSE SUA-1475 (TAC J00535)

Dear Mr. Blickwedel:

By letter dated August 15, 2007 (ML072350268), GE Corporate Environmental Programs (GE), on behalf on United Nuclear Corporation (UNC), submitted a request to amend License Conditions 30.A and 30.C of Source Material License SUA-1475 for UNC's uranium mill site in Church Rock, New Mexico. The request includes the termination of the corrective action program (with continued ground water monitoring) in the Southwest Alluvium, revisions to the Zone 3 corrective action program, and a reduction in ground water quality monitoring from quarterly to semi-annual.

The Nuclear Regulatory Commission (NRC) staff has completed the initial processing, which is an acceptance review, of your proposed license amendment. During this initial processing, no omissions/deficiencies were identified. Please note that the complete technical review may identify technical issues that require additional information. UNC's amendment request will be listed for a 60-day period under the heading *Opportunities to Request a Hearing or Petition to Intervene* on the NRC's Public Website at the following address: <http://www.nrc.gov/about-nrc/regulatory/adjudicatory/hearing-license-applications.html#4>.

If you have any questions, please contact me at pxm2@nrc.gov or (301) 415-7612.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/
