818 Power Building
Chattanooga, Tennessee 37401

Dear Mr. Wells:

WATTS BAR UNITS NO. 1 AND NO. 2

Our records do not indicate receipt as yet of information identified in Regulatory Guide 9.3 (copy attached) in connection with the operating license review of the captioned plant. Considerable time has lapsed since your initial application for operating licenses on June 20, 1976, and we therefore would appreciate it if you could supply the information as soon as possible so that we can complete our findings as to whether any significant changes have occurred subsequent to the previous construction antitrust review that would warrant another review at the operating license review stage.

It would assist us in our scheduling if you could advise us as to the approximately time you expect the information will be available.

Sincerely,

/s/ A. L. Toalston
