Docket Nos. 50-390
 and 50-391

Mr. William M. White, Chief
 Division of River Basin Studies
 Bureau of Sport Fisheries and Wildlife
 U. S. Department of the Interior
 Washington, D.C. 20240

Dear Mr. White:

In accordance with the understandings which were reflected in Secretary Udall's letter of March 20, 1964, to Chairman Seaborg, I am forwarding two sets of Volumes 1, 2, 3, and 4 of the Preliminary Safety Analysis Report filed by the Tennessee Valley Authority for its proposed two pressurized water nuclear power reactors. The proposed reactors, designated as the Watts Bar Nuclear Plant Units 1 and 2, are to be located on the Agency's site in Rhea County, Tennessee.

We would appreciate receiving a report from the Fish and Wildlife Service concerning these features of the proposed reactor operation which might have radiological effects on fish and wildlife.

Sincerely,

Original-Signed By
 R. C. DeYoung

Richard C. DeYoung, Assistant Director
 for Pressurized Water Reactors
 Division of Reactor Licensing

Enclosure:

Vols 1, 2, 3, and 4 of PSAR for
 Watts Bar Nuclear Plant Units 1
 and 2
