SUBJECT: MAILING ADDRESS FOR NRC LICENSE NO. 42-32219-01

Dear Mr. Tebo,

This letter serves to document our telephone conversations between August and October 2007, regarding the mailing address for Team Industrial Services, Inc., NRC License No. 42-32219-01. On April 6, 2007, you were named as the Radiation Safety Officer on the subject license. The mailing address remained in Alvin, Texas, where the corporate headquarter's office is located, while your location remained in Hammond, Indiana. Additionally, your license authorizes multiple field offices that are located in each of the NRC regional office jurisdictions.

The NRC staff reviewed the guidance in NUREG-1556, Volume 20, Section 3.2.2, which states in part that where a licensee authorizes the use of material in more than one Region, then the mailing address of the parent company should be used to determine the Region that will be assigned the respective license. However, the guidance in NUREG-1556, Volume 2, "Program Specific Guidance for Industrial Radiography Licenses" states in part that the licensee should provide the mailing address where correspondence should be sent. The NUREG-1556, Volume 2 guidance does not require the mailing address to correspond to the headquarter's address of the licensee.

Please inform this office in writing, within 30 days from the date of this letter, as to the mailing address required on your NRC License No. 42-32219-01 and where all applicable records will be maintained. As we discussed on the telephone, there are three (3) options:

1. Maintain the mailing address and all applicable records in Alvin, Texas. The NRC would subsequently retain the license in Region IV.
2. Maintain the mailing address in Alvin, Texas and all applicable records will be maintained in Hammond, Indiana. The NRC would subsequently retain the license in Region IV and add a license condition to state that all applicable records will be stored in Hammond, Indiana.
3. Change the mailing address to Hammond, Indiana and maintain all applicable records in Hammond, Indiana. The NRC would subsequently transfer the entire license to the Region III office.
