Dear Ms. Rushin:

This letter is in response to your letter received by our office on November 5, 2007, which provided us with information regarding five workers from Energy Solutions, a company located in Utah.

After a discussion with Mr. Aguilar of your staff, it is our understanding that no specific actions are being requested on the part of the Nuclear Regulatory Commission (NRC) regarding the incidents. Mr. Aguilar indicated that the information was also provided to the State of Utah, Department of Environmental Quality (DEQ). The Utah DEQ has the regulatory authority over this facility; therefore, we determined that no additional follow up is necessary by the NRC.

If you have any questions, please contact Linda McLean of my staff at (817) 860-8116.

Sincerely,

/RA/

Leonard D. Wert, Director
Division of Nuclear Safety
