Leah,

This email is to acknowledge the receipt of your request for an exemption from the requirements of 10 CFR 70.24. Because a license amendment involving an exemption from 70.24 is not categorically excluded by 10 CFR 51.22, we will do the appropriate Federal Register Notices and Environmental Assessment. We will process these tasks in an expedited manner consistent with the importance of the Order, however, due to the public nature of the EA process, we cannot commit to a completion date at this time. In addition, it may be prudent to inform your customer that notices in the Federal Register will appear in the near future related to this request and that the NRC will keep information published to a minimum as we have previously agreed. The scope of information in the FRNs will be consistent with those for License Renewal.

Sincerely,
Billy
