Terry,

We have completed our acceptance review of USEC's letter dated November 1, 2007 (AET 07-0065 ) and find it acceptable for review. Our security reviewer also had the following request for additional information.

- Text removed under 10 CFR 2.390

- Text removed under 10 CFR 2.390

- Has a request been submitted to revise the Lead Cascade's Facility Data and Approval Record maintained on DOE's Safeguards and Security Information Management System to reflect the new classified overnight mailing address?

Given the likely sensitivity of the answers to these questions, I recommend utilizing the standard written response letter process. We have assigned TAC #L32403 to this review, please reference this number in all future correspondence related to this request.

Thanks,

James
