SUBJECT: SUPERIOR WELL SERVICES, VOIDANCE OF APPLICATION FOR LICENSE  
AMENDMENT, CONTROL NO. 141001

Dear Mr. Wallace:

This concerns the subject application dated August 27, 2007, for an Amendment to your material license to authorize a sealed source on the license. The Sealed Source and Device Registry Certificate of the requested sealed source does not indicate that the sealed source is approved for well-logging operations. Therefore, in accordance with NRC requirements we are unable to authorize the requested sealed source for use in well-logging operations. Michael Reichard of this office explained the requirement to Daniel Coffee of your staff during a telephone conversation with him on October 18, 2007.

We have, therefore, voided your request. This action is taken without prejudice to the resubmission of your request.

Sincerely,
