John S. Harkness  
Radiation Safety Officer  
Moberly Regional Medical Center  
1515 Union Street  
Moberly, MO 65270

Dear Mr Harkness:

Enclosed is Amendment No. 28 to your NRC Material License No. 24-18695-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

**Please note that Dr. Faler was not added to your license as an authorized user. The ABR certification dated 2001 provided as evidence of his training and experience, is not recognized by the NRC. If you wish to pursue this matter in the future, please review 10 CFR 35.290(c)(1) and (c)(2) "Training for Imaging and Localization Studies" and provide a completed NRC 313A(AUD) form. The regulations and the form can be found on the NRC.gov website.**

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in cursive script, appearing to read "Toye L. Simmons".
