Docket No. 50-390

Mr. Oliver D. Kingsley, Jr.
President, TVA Nuclear and
Chief Nuclear Officer
Tennessee Valley Authority
6A Lookout Place
1101 Market Street
Chattanooga, Tennessee 37402-2801

Dear Mr. Kingsley:

By letter dated November 7, 1990, TVA responded to the staff's August 16, 1990 request for supplemental information regarding the Q-List Corrective Action Program (CAP), Revision 3. Additional comments were provided in the NRC's letter to TVA dated January 23, 1991. TVA responded in a letter dated July 8, 1993, along with a response to an issue identified in NRC Inspection Reports 50-390, 50-391/90-08 concerning equipment tagging in relation to revised Q-List interfaces and program implementation.

The staff has reviewed TVA's July 8, 1993, response, and concludes that the submittal is fully responsive to the staff's January 23, 1991 comments. Details are delineated in the enclosed safety evaluation. The safety evaluation will be published in its entirety in Supplement 13 of the Watts Bar SER (NUREG-0847).

Sincerely,

Original signed by

Peter S. Tam, Senior Project Manager
Project Directorate II-4
Division of Reactor Projects - I/II
