Gentlemen:

In the Matter of the Application of) Docket Nos. 50-390
Tennessee Valley Authority) 50-391

WATTS BAR NUCLEAR PLANT (WBN) - INSERVICE TESTING PROGRAM REVISION 2

Revision 1 of the WBN American Society of Mechanical Engineers (ASME) Section XI Pump and Valve Testing Program was submitted by a letter dated March 15, 1994. The purpose of this submittal is to provide Revision 2 which incorporates comments made by the staff reviewer and lessons learned from the preoperational testing program. Minor changes were also made that are not discussed, but are annotated by revision bars in the margin.

TVA is available to discuss this revision or issues related to this revision with the staff in a meeting or conference call at the Staffs' earliest convenience.

If you should have any questions, contact P. L. Pace at (615)-365-1824.

Sincerely,

Dwight E. Nunn
Vice President
