Subject: Comment on NRC

Dear Senator Kohl,

Now that the US is going ahead with developement of new nuclear power generation is there any way that the regulatory review at the NRC for granting combined operating license can be expedited? Currently it takes many years to grant a license which is unacceptable in my opinion. We should be able to grant licenses in a year or less and should fund the agency so that could happen. Thanks for your consideration.

Sincerely,
Phil Carlson, MD
