

Docket File

Tennessee Valley Authority, 400 West Summit Hill Drive, Knoxville, Tennessee 37902-1499

Craven Crowell
Chairman, Board of Directors

September 26, 1995

The Honorable Shirley Ann Jackson
Chairman
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Shirley:

Thank you for providing TVA the opportunity to brief the Commission on September 11 regarding the status of Watts Bar Nuclear Plant Unit 1.

As I noted in my remarks at the meeting, Watts Bar Unit 1 is crucial to meeting the need for power in the Tennessee Valley. We are committed to completing the work necessary to operate that unit and Browns Ferry Unit 3 safely and efficiently. Further, we are committed to the continued safe operation of Sequoyah and Browns Ferry Unit 2.

I appreciate the interest that you have shown in our application. We look forward to working with your staff to reach final resolution on the remaining issues and to moving forward into operation.

Please contact me or my staff if we can provide any information which will help you in your consideration of the Watts Bar Unit 1 license application.

Sincerely,

Craven Crowell
