Subject: SERP - Prelim Yellow - Farley - Wed June 20, 1pm

Region II has asked to Panel an issue from Farley next Wed, June 20 at 1 pm in)14F3 (the OE conference room)

The issue is the failure of the A train RHR containment sump recirc isolation valve to fully open when tested from the mail control board during a quarterly surveillance test.

Region II has made of preliminary determination of yellow.

Please confirm availability of staff to participate so that I can inform Region II.

Worksheet to follow.

NOTICE: I have established a unique color for the notification that will show up in your mailbox - I am hoping this will help you out by allowing you to easily spot notifications for SERPs.

thanks
