EMPLOYEE CONCERNS SPECIAL PROGRAM (ECSP)

Enclosed is the special supplemental report of the ECSP Corrective Action Plan (CAP) deviations (Levels I, IIa, and IIb) approved in support of Watts Bar Nuclear Plant (WBN) Unit 1. The enclosure contains CAP deviations approved during the period from January 1, 1995, to August 15, 1995.

The CAPs for all remaining open ECSP Corrective Action Tracking Documents (CATDs) required to support WBN Unit 1 for which closure packages had not been prepared, were reviewed to ensure the CAPs were consistent with the latest planned actions to resolve the employee concerns. CAP deviations were prepared as needed. Additional CAP deviations may be processed and approved in support of WBN Unit 1 following the issuance of this report.

TVA plans to transmit all other 1995 CATD CAP deviations to the NRC in the ECSP Eighth Annual Report which should be issued during the first quarter of calendar year 1996.

In addition, it should be noted that TVA has completed the Employee Concerns Special Program Lookback Project. A report which contains a summary of the results and conclusions of the program is available in the WBN Concerns Resolution Staff office for your review. An overview of the Lookback Project results was submitted to you as part of the TVA Reasonable Assurance Assessment Report dated June 28, 1995.

If you have any questions, please contact D. Vic Whaley at (615) 751-7009.

Sincerely,

Patrick P. Carrier  
Manager  
Corporate Licensing
