U.S. Nuclear Regulatory Commission  
Attention: Document Control Desk  
Washington, DC 20555-0001

Subject: Duke Power Company LLC d/b/a Duke Energy Carolinas,  
LLC (Duke)  
Catawba Nuclear Station, Unit 2  
Docket Number 50-414  
Confirmatory Action Letter CAL No. NRR-07-015  
Catawba Nuclear Station, Unit 2 (TAC No. MD4142)  
Closeout Letter

The subject CAL was issued by the NRC on March 20, 2007 and concerned Alloy 82/182 butt welds in the pressurizer at Catawba Nuclear Station, Unit 2. Specifically, Item 3 of the letter required Duke to notify the NRC in writing when Catawba Unit 2 has completed the actions and commitments addressed in the letter.

Catawba Unit 2 successfully mitigated these Alloy 82/182 butt welds during the Unit 2 End-of-Cycle 15 Refueling Outage using weld overlays. Request for Relief Number 07-GO-001 documented this issue and Catawba submitted all information committed to in this Request for Relief via letters dated October 25, 2007 and November 8, 2007. Accordingly, Duke is providing this letter to formally document our closeout of the actions required by the subject CAL.

If you have any questions concerning this information, please contact L.J. Rudy at (803) 831-3084.

Very truly yours,

James R. Morris
