DOCKET NUMBER  
PROD. & UTIL. FAC. **50-390** 391

7/7/78

June 28, 1978

United States Nuclear Regulatory Commission  
Washington, D.C. 20555

Attention: Director, Division of Site, Safety and Environmental  
Analysis

May we request a hearing concerning the Watts Bar nuclear  
plant, Unit Nos. 1 and 2, since there was no public hearing held  
at the operating permit stage?

We would also request that we be accepted as intervenors or  
friends of the court.

We make this request because the Draft Environmental State-  
ment published June 1978 relating to operation of Watts Bar Nuclear  
plant, Unit Nos. 1 and 2 TVA brings up numerous questions of concern  
for the people in the immediate vicinity of the plant.

Sincerely,

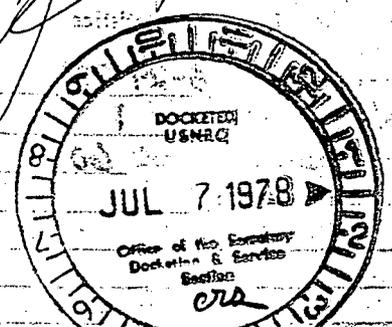

*Zelia Jensen*
