Subject: Follow Up Items For NRC - regarding the alternative energy analysis for the proposed Indian Point license extension

Attached is my initial attempt to capture the reports and other information promised to NRC staff at our meeting this past Tuesday. Please let me know by COB next Tuesday of any additions or other modifications required.

As mentioned at the meeting, I would be happy to serve as the conduit for providing these items to NRC (and any of you that might be interested). Fortunately, most of the items identified are available on the web.

Thanks,

Jack
