VIRGINIA ELECTRIC AND POWER COMPANY
AND OLD DOMINION ELECTRIC COOPERATIVE
NORTH ANNA POWER STATION UNIT 3
COMBINED LICENSE APPLICATION PART 8-SECURITY PLAN

Pursuant to Sections 103 and 185(b) of the Atomic Energy Act, and 10 C.F.R. Part 52, Subpart C, Virginia Electric and Power Company, doing business as Dominion Virginia Power (DVP or Dominion), and Old Dominion Electric Cooperative (ODEC) applied today to the U.S. Nuclear Regulatory Commission for a combined license (COL) to construct and operate an ESBWR, designated North Anna Power Station Unit 3, at the North Anna Power Station site.

Part 8, Security Plan, of the North Anna COL application is enclosed. The security plan, titled "Dominion's Combined Operating License Application (COLA) Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan" was created by incorporating security details specific to North Anna Unit 3 into the current security plan for the existing fleet (North Anna, Surry, Kewaunee, and Millstone Power Stations). The enclosed security plan is consistent with NEI 03-12. The security plan also addresses NEI 03-01, and NEI 03-09.

Assuming NRC approval, security for the new reactor during construction would be implemented prior to onsite licensed construction activities of any safety-related structures, systems, or components as described in Part 2, FSAR Section 13.6 of the North Anna COLA. At the point of delivery of nuclear fuel to Unit 3, security for the new reactor would be implemented based on the enclosed plan.

The enclosed material contains Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended.

NOTE: THE ENCLOSURE TO THIS LETTER CONTAINS "SAFEGUARDS INFORMATION" AND MUST BE PROTECTED ACCORDINGLY. UPON SEPARATION OF THE ENCLOSURE, THIS LETTER IS "DECONTROLLED."
