Global Laser Enrichment Commercial Facility

HITACHI

Presentation to the U.S. Nuclear Regulatory Commission

Global Laser Enrichment Facility
Site Selection Process & Environmental Report
November 26, 2007

HITACHI

Global Laser Enrichment Commercial Facility

►Site Selection Process

The objective of the site selection process is to identify an appropriate site at which to locate the proposed GLE facility and to confirm that there is no other "obviously superior" site in terms of environmental impacts and economic costs.

►Approach

- Initial Candidates
- Coarse Screens & Site Visits
- Fine Screening
- Cost Benefit Analysis

HITACHI

Global Laser Enrichment

Environmental Report Development

- Experienced contractor selected (RTI)
- Utilizing NUREG-1748 format for report
- Incorporating USEC & LES lessons learned

Alternatives Treatment

- Robust site selection process used
- Only preferred site to be carried through report
- Reasonable alternatives to be discussed
(technology, facility design, site & facility location)

HITACHI

Global Laser Enrichment

Public Outreach Plan

Local government contacts

State & Federal contacts

Coordinate site selection announcement w/ NRC
