Docket Nos. 50-390
and 50-391

Tennessee Valley Authority
ATTN: Mr. N. B. Hughes
Manager of Power
830 Power Building
Chattanooga, Tennessee 37401

Gentlemen:

The Radiological Assessment Branch has prepared the attached Branch Technical Position on "An Acceptable Radiological Environmental Monitoring Program". This position replaces the radiological portion of Regulatory Guide 4.8 for use until it is incorporated in a revised guide or issued as a separate guide.

This position will be used in reviewing the environmental radiological monitoring program proposed by all applicants in their Environmental Reports. A copy of this position is provided to you for your use in developing your radiological environmental monitoring program for Watts Bar Nuclear Plant, Unit Nos. 1 and 2.

Although it is presently planned to incorporate the radiological environmental monitoring program in Appendix A technical specifications, Environmental Projects retains the responsibility for managing the development of these programs. If you have any questions regarding the above please contact Mr. Oliver Lynch, Environmental Project Manager on (301) 492-3438.

Sincerely,

Original signed by
W. H. Regan

Wm. H. Regan, Jr., Chief
Environmental Projects Branch 2
Division of Site Safety and
Environmental Analysis
