SUBJECT: RESPONSE TO LETTER DATED SEPTEMBER 5, 2007

The NRC received your notification letter dated September 5, 2007. We appreciate your informing us of your intent to install two additional Ohmart/Vega fixed gauging devices at your facility. Please note that our standard language in Item 9 does not authorize a specific model number, but only authorizes a device manufacturer and the requested use for the device. This standard language allows you to purchase different device model numbers or upgrades, as long as the manufacturer's device uses the sealed source model number(s) that are authorized on your license. The manufacturer model numbers will be verified during inspection and documented as part of the inspection process.

Again, thank you for your notification. If you have any questions or concerns, please contact me at (817) 276-6552.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible on the following internet address:
<http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

/RA/

Rachel S. Browder, Health Physicist
Nuclear Materials Licensing Branch
