DOMINION ENERGY KEWAUNEE, INC.
KEWAUNEE POWER STATION
WITHDRAWAL OF INSERVICE INSPECTION PROGRAM RELIEF REQUEST
RR-G-2, REVISION 1

Pursuant to 10 CFR 50.55a (a)(3)(i), Dominion Energy Kewaunee, Inc. (DEK) requested Nuclear Regulatory Commission (NRC) approval of revision 1 to inservice inspection program relief request RR-G-2 (reference 1) for Kewaunee Power Station.

Relief request RR-G-2, revision 1 would have permitted Kewaunee Power Station to delete the 4-hour hold-time requirement currently identified in RR-G-2, Section 4, "Alternative Method of Examination."

Based on discussions with NRC staff, DEK has determined that inservice inspection program relief request RR-G-2, revision 1, is no longer needed.

DEK hereby requests withdrawal of inservice inspection program relief request RR-G-2, revision 1.

If you have any questions or require additional information, please contact Mr. Gerald Riste at (920) 388-8424.

Very truly yours,
