

Docket

November 22, 1994

APPLICANT: Tennessee Valley Authority (TVA)
 FACILITY: Watts Bar Nuclear Plant, Unit 1
 SUBJECT: MEETING SUMMARY - OCTOBER 4, 1994, MEETING WITH THE TENNESSEE VALLEY AUTHORITY REGARDING TECHNICAL SPECIFICATION MILESTONES (TAC NO. M76742)
 REFERENCE: Meeting notice by P. S. Tam, October 26, 1994

On November 2-8, 1994, NRC and TVA representatives met in Rockville, Maryland, to discuss technical issues raised as a result of the staff's review of the Proof and Review version of the Watts Bar Technical Specifications (TS).

There was no written agenda since it was a working meeting in which participants reviewed and discussed staff and TVA comments on the TS, resolving comments or agreeing to perform more work toward resolution. Because of the extent of the changes to the Proof and Review version of the TS and the number of unresolved issues between the staff's copy and TVA's copy of the Watts Bar Nuclear TS, a date for issuance of the Final Draft TS cannot be set until the discrepancies between the two copies are resolved.

Original signed by:
 Laura A. Dudes, Project Engineer
 Project Directorate II-4
 Division of Reactor Projects - I/II
 Office of Nuclear Reactor Regulation
