SUBJECT: DECOMMISSIONING SCHEDULE AMENDMENT: ABC LABORATORIES,  
COLUMBIA, MISSOURI

Dear Mr. Ward:

Enclosed is Amendment No. 32 amending your NRC Material License No. 24-13365-01. This amendment has been issued in accordance with Ms. Sheila Hecht's letter dated October 5, 2007, which requested that the NRC allow ABC Laboratories to delay the submission of a decommissioning plan (DP) to the NRC for review to the end of November 2007. ABC Laboratories was required pursuant to 10 CFR Part 30.36(d) and (g) to prepare and submit a DP for the remediation and final status survey of ABC Laboratories former Sanitary Lagoon and its associated Leach Field. Please note that changes made to your license are printed in **bold** font.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22( c)(11).P

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Please review the enclosed document carefully and be sure that you understand all conditions. If you have any questions regarding our review or this amendment, do not hesitate to contact me at (630) 829-9856.

Sincerely,

A handwritten signature in black ink, appearing to read "George M. McCann".
