4: DAVIS BESSE — Wednesday night's end-of-cycle performance review meeting for Davis-Besse was covered by reporters from the Toledo Blade and the Port Clinton News-Herald. Region III OPA did a followup interview with a talk radio station in Toledo today. Plant performance for 2006 had all green findings and performance indicators and the baseline inspection program is underway with additional inspections planned to review the independent assessments required under a 2004 order.
