5: DAVIS BESSE -- Dan Horner of Platts interviewed Region III Deputy Regional Administrator Mark Satorius to review the process which led to the issuance this week of a Confirmatory Order to FirstEnergy Nuclear Operating co. Satorius indicated that initial telephone calls led to formal correspondence between the licensee and Region III. The next step was a Demand For Information followed by a public meeting. The Confirmatory Order documents the commitments made by FirstEnergy in responding to the Demand for Information and public meeting.
