JAN 3 0 1986

Docket Nos: 50-390/391

Mr. William S. Schum
Quality Technology Company
P. O. Box 600
Sweetwater, Tennessee 37874

Dear Mr. Schum:

Recently Mr. James Taylor, the Director of the Office of Inspection and Enforce-
ment spoke to you concerning the importance of preserving the integrity of the
original records of employee interviews that QTC developed as a result of the
employee concern program at TVA. We raised that concern because of the then
potential for the QTC contract with TVA being terminated. During that discussion,
you assured Mr. Taylor that you intend to preserve the integrity of the original
records. We understand that contractual matters are still in negotiation
between TVA and QTC.

NRC remains concerned with the preservation of the original records and our·
ability to obtain access to them in order to carry out the Commission's
regulatory responsibilities. For that reason I issued the enclosed
immediately effective Order requiring, among other things, the preservation
of the integrity of the original unexpurgated records, prohibiting the removal
of the records, NRC access to the original records for inspection and copying,
and five day notification prior to QTC relinquishing custody of the records.

Based on NRC's previous conversations with QTC, I have every expectation that
QTC will cooperate with TVA in complying with the Order. For the record, I
would appreciate if you would reply in writing within seven days as to
whether QTC intends to fully cooperate with TVA to assist TVA in meeting the
requirements of the Order. If you have any questions on this matter, please
call me or Hugh L. Thompson, Jr., (301/492-9595) or me.

Sincerely,

8602120498 860130
