Peter Tam, Project Manager  
United States Nuclear Regulatory Commission  
Mail Stop 014-B21  
Washington, D.C. 20555-0001

February 10, 1995

Dear Mr. Tam,

I am the Southeastern Regional Campaigner for the Greenpeace Energy Campaign. My region covers 13 states. My main priority is to work on helping raise the awareness and support for renewable fuels and energy conservation and efficiency as a solution to meet the Tennessee Valley Authority service area's future energy needs. In light of this priority, the licensing of Watts Bar I and other nuclear power plants is of critical importance to our campaign.

Greenpeace has over 20,000 members in Tennessee alone and our supporters have made the licensing of Watts Bar and the TVA Integrated Resource Plan a very high priority for 1995 and 1996. We would therefore like to be placed on the distribution list of people who get NRC information about the licensing of Watts Bar I. Please send information, meeting notices and reports to:

Beth Zilbert, Energy Campaigner

Thank you very much for your help and cooperation.  
Please feel free to contact me with questions at any time.

Sincerely,  
*Beth Zilbert*
