Christian,

Here is the answer. We will revise to be consistent in Rev. 3.

Ted-

We should consistently use EIP. EPIP is not routinely used at SNC. The procedures fall into two groups: Implementing procedures and Administrative procedures. Implementing procedures are those that are used in response to the event, typically by the ERO. These are the procedures that are required to be submitted to the NRC under our current commitments.

Jim,

Can you address this question EP from Bruce?

Christian
QUESTION:

The ESP application, including the ITAAC tables, seems to use the terms "EPIPs", "EIPs", and "administrative procedures" interchangeably. In some cases, the EIPs appear to be the administrative procedures. Is there a difference, and can all procedure references (only) in the ITAAC tables be to "Emergency Plan Implementing Procedures (EPIPs)"? If not, please clarify the differences.
