

Ms. Michelle Neal
 Energy Project
 The Foundation for Global Sustainability
 P. O. Box 1101
 Knoxville, Tennessee 37901

Dear Ms. Neal:

By letter dated May 14, 1993, Ms. Danielle Droitsch requested, among other things, that the Energy Project of the Foundation for Global Sustainability be included on the NRC document service list for Watts Bar. In her letter, she specifically stated that the Foundation was "seeking NRC intervenor status." By letter dated June 2, 1993, I informed her that the Foundation had been added to the NRC mailing list, and since then the staff has distributed a copy of all NRC-issued and publicly available Watts Bar documents to the Foundation.

As you know, Watts Bar Unit 1 was granted a full-power operating license on February 7, 1996. As you had requested that your organization be included on the document distribution list during the Watts Bar licensing review, your organization was removed from that list after Watts Bar received its license. Thus, you will not be receiving copies of documents but may, of course, obtain documents by visiting the NRC local public document room (LPDR) for Watts Bar Nuclear Plant (Chattanooga-Hamilton County Library, 1001 Broad Street, Chattanooga, Tennessee). You may also obtain documents by contacting our LPDR staff at 1-800-638-8081.

If I can be of further assistance, please contact me at 1-800-368-5642, extension 1451, or you may contact me by internet: pst@nrc.gov.

Sincerely,

Original signed by

Peter S. Tam, Senior Project Manager
