September 27, 1976

Director of Nuclear Reactor Regulation
Attention: Mr. Roger S. Boyd, Director
Division of Project Management
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Boyd:

In the Matter of the Application) Docket Nos. 50-390
Tennessee Valley Authority) 50-391

TVA has received your letter of September 15, 1976, and understands that the NRC has completed our acceptance review and found our application acceptable for docketing. We are submitting under separate cover the remaining copies of the following documents required in support of TVA's application for a Class 103 operating license for the Watts Bar Nuclear Plant.

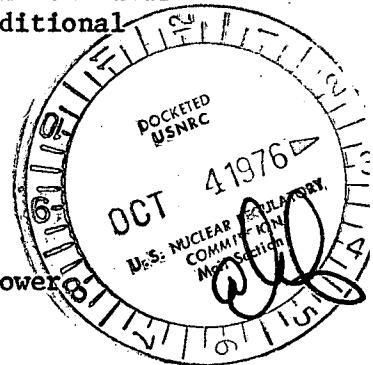

1. Final Safety Analysis Report - 40 copies
2. Radiological Emergency Plan - 40 copies
3. Information pursuant to section 50.33 of the Commission's Rules and Regulations - 15 copies

The initial submittal of these documents was made by Amendment No. 23 on June 30, 1976.

TVA is looking forward to receiving the review schedule in the near future. A schedule for responding to the request for additional information will follow by October 4, 1976.

Very truly yours,

J. E. Gilleland
Assistant Manager of Power

Subscribed and sworn to before me this 27th day of Sept 1976

Carolyn B. Lobert
Notary Public

My Commission Expires 7-2-78
