Subject: Re: Question on DB head inspection commitments

I'll take a look and let you know.

>>> Jay Collins 4/4/2007 8:18:01 AM >>>  
Greetings Tom,

Could you look into something for me to support the Exponent Report review, please? In a letter dated March 11, 2004, from L. Myers to the NRC, Serial Number 3033, FENOC committed to performing additional inspections of the new Davis-Besse RPV head. Are these commitments still in place? They are not in the CAL allowing start-up.

Thanks,  
Jay
