Director of Nuclear Reactor Regulation
Attention: Mr. S. A. Varga, Chief
Light Water Reactors Branch No. 4
Division of Project Management
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Varga:

WATTS BAR PHYSICAL SECURITY PLAN

Enclosed are copies 6 through 10 of the Revised Watts Bar Physical Security Plan dated February 27, 1978. This revision was necessary to address concerns raised in your letter dated January 17, 1978, to Godwin Williams, Jr. Enclosure 1 to this letter provides appropriate references to the revised plan or explanatory information for each item of your letter.

The plan and Enclosure 1 are marked PROPRIETARY and should be withheld from public disclosure as provided for in 10 CFR 2.790. These plans are the property of TVA, and instructions for their handling are provided on the cover sheet of each plan. Also included is a receipt form with each plan. This form should be signed and dated by the responsible individual and returned to TVA together with all previously provided plans.

Very truly yours,

J. E. Gilleland
Assistant Manager of Power
