DECONTAMINATION - MARTIN MARIETTA CORPORATION - BALTIMORE PLANT - DOCKET
NO. 70-58

We have reviewed their comprehensive survey report, dated September 22, 1970, copies of which were routed to Compliance Headquarters and your field office. This will confirm our verbal request, on September 28, 1970, that Compliance perform an independent survey of their licensed facilities and then advise us as to whether the residual contamination is sufficiently low to permit us to release these facilities to non-licensed activities.
