RE: License #13-26510-01

To Whom It May Concern:

This facility would like to request an amendment to add another location to our license for mobile nuclear medicine service. All applicable radiation safety procedures will be performed the same as stated in the license that is currently held under 10-CFR-35.

The amendment to the license is to add this location to our license:

Wall Street Internal Medicine  
Dr. C. Jane Nevitt  
73 Quartermaster Court  
Jeffersonville, IN 47130

Administration of radioactive material and scanning will be performed in the client's facility.

Radiation safety procedures:

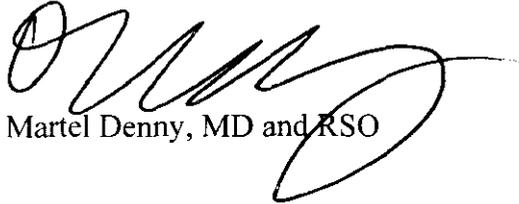

- A letter that is signed by the management of the client permitting the use of byproduct material at the client's address delineating the authority and responsibility of the client to the licensee is attached.
- Radioactive material will be received at the original address for the license.
- Radioactive material will be taken to above address. Prior to administration, the decay calculation will be performed and written records of actual doses will be kept on file.
- Instructions used to measure the activity of unsealed byproduct material will be checked for proper function before use at the approved addresses. This will include at least a dedicated source check of the survey instrument.

RECEIVED DEC 06 2007

- Temporary "Caution, Radioactive Material" signs will be posted during administration and scanning procedures.
- All waste and radioactive material will be transported back to the original licensed address.
- Before leaving the above address, after all patient scans have been completed, a survey of all areas of use will be performed to ensure compliance.
- The letter from the client and surveys required will be retained for at least 3 years.
- All applicable DOT requirements will be performed such as:
  - Shipping paper completed and retained
  - Surveys of packages as required
  - DOT training for all applicable personnel

If further information is required, please contact Janice Oakley, CNMT at 812-282-1617.
