Re: Shieldalloy Metallurgical Corporation
Newfield, NJ
License No. SMB-743

Dear Mr. Hayes:

The New Jersey Department of Environmental Protection (NJDEP) is in receipt of the Sampling and Analysis Plan for Radiological Characterization of Selected Material and Areas at the Newfield Facility (Report No. 94005/G-29353, Rev. 0) dated November 6, 2007. The document was received on Friday, November 30, 2007 via email from the NRC staff because it was not previously available in the ADAMS database. We were advised that the sampling is to begin the week of December 3, 2007.

Upon a quick review of the Sampling and Analysis Plan, NJDEP notes that the additional proposed sampling does not appear to address the data gaps, including an investigation of locations in the Hudson's Branch further downstream from the investigations performed in the 1991 Environmental Assessment.

If you have any questions regarding this letter, please contact me at (609) 633-1494.

Sincerely,

A handwritten signature in cursive script that reads "Donna L. Gaffigan".

Donna L. Gaffigan, Case Manager
Bureau of Case Management

C: Patricia Gardner, NJDEP/BER
