October 28, 1976
REGULATORY DOCKET FILE COPY

Director of Nuclear Reactor Regulation
Attention: Mr. Roger S. Boyd, Director
Division of Project Management
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Boyd:

In the Matter of the Application) Docket Nos. 50-390
Tennessee Valley Authority) 50-391

Enclosed for your review are the documents requested in questions 362.1 and 362.3 of the "Watts Bar Nuclear Plant Acceptance Review Requests for Additional Information." In conversations with Carl Stahle of your staff, it was determined that only three copies of the requested information were needed.

As requested by the above questions, we have provided the following:

1. In response to question 362.1, three copies of the "Laboratory Test Procedures-Consolidated-Drained Direct Shear Triaxial Compression Tests and Laboratory Test Data Sheets (Q, R, and S)."
2. In response to question 362.3, three copies of "TVA General Construction Specification Number G-9 for Rolled Earthfill for Dams and Power Plants (Revision 3)."

Reference to these documents and this letter will be made in the question and response portion of the Watts Bar Nuclear Plant FSAR.

Very truly yours,

J. E. Gilleland
Assistant Manager of Power
